

Digital Solution for Compliance and Internal Control

Dedicated to Compliance officers. 1st, 2nd & 3rd levels

BELT: A Proven and Expanding Solution

BELT was developed in 2013 by and for AGAMA Conseil, the French leader in delegated permanent and periodic control assignments for asset management companies.

After 10 years of use and development, and at the request of stakeholders, BELT is offered to compliance and internal control functions.

In 2024, BELT expands its service offering to 1st-level controls, complementing the 2nd and 3rd levels.

BELTInnovation

Digitalization

All 1st, 2nd, and 3rd-level controls are performed on the platform

Security

Traceability and securing of your work with a comprehensive risk view

Adaptability

Designed for organizations of all sizes and types

Simplicity

An ergonomic and educational tool that is updated and concise

The Needs of Internal Control Functions

Time Savings

Redirect time to high-value tasks and increase productivity

Interaction

Strengthen exchanges with operational staff to reposition compliance functions in their advisory role

Team Training

An educational tool to support team skills development through Agama Conseil's expertise

Reporting

Clear and concise reporting for a simplified global view

Audit Trail

Archiving audit trails as part of control work

Testimonials from Our Users

"The advantage observed for our clients is the ease of generating a control report at any time in just a few seconds. This is a guaranteed time saver for Compliance officers. When the report is generated, non-compliance points are immediately highlighted".

RCCI, Asset Management Company

"BELT has become our daily working tool for essential smoothness and time savings. The entire compliance team is delighted with this support".

RCSI, Private Equity Company
